

About L.A.M.B.

At the age of 14, Luana Martucci lost her brother Lawrence to cancer when he was just 6 years old. From then on, she made a promise that she would not allow the pain and suffering that her brother endured go in vain. Over the course of nine years, a simple fundraiser planned on the 20th anniversary of Lawrence's passing has since grown into a viable charity with so much heart to give.

The Lawrence A. Martucci Benefit, Corp. (L.A.M.B.) has been recognized by the Lightning Hero Foundation, was awarded the 2020 Best of Tampa Award in the Charity Organizations category, and has donated almost \$330,000.00 to local pediatric cancer research.

Our Mission

Our mission has always been to find a cure or prevention to childhood cancers, with a strong focus on the prevention above all else. We believe that the treatment of cancer is sometimes harsher than the cancer itself. For the last 9 years, we have dedicated ourselves to supporting local research to find a vaccine for childhood leukemia, and supporting the families going through treatment.

We Believe

"We believe that the best cure to cancer is to never have it at all." –Dr. Cameron Tebbi

We support the prevention research directed by Dr. Cameron Tebbi of the Children's Cancer Research Group through the 1Voice Foundation. His research started over 40 years ago when he began working as a pediatric oncologist at St. Joseph Children's Hospital. To date, his research has been able to identify and patent the protein that makes blood cells leukemic (if that person already has a predisposition to have leukemia). Dr. Tebbi's goal is to develop a screening process to identify newborns that may have a future diagnosis of leukemia and immediately vaccinate that child at birth so that they never have to suffer through treatment.
